

Welcome to the 11th Emergency Abdominal Surgery Course. The first was held in Letterkenny Donegal in May 2012 and the most recent in Coimbra Portugal and Torrevieja Spain. This course builds on its success and is further enhanced by an international faculty who are leaders in Emergency Surgery.

EASC has evolved into a world leading course in Emergency Abdominal Surgery. EASC curriculum focuses on the acute abdomen, in a multidisciplinary shared learning approach. It will bring you a level of discussion you have not heard before and enhance your ability on-duty as a

- surgeon,
- gastroenterologist
- radiologist
- emergency physician

either as a trainee or a specialist. This course is about decision making, patient and common emergencies.

Course Goals

Understanding the natural history of key emergency surgery presentations, with emphasis on

- *decision making and*
- *operative/intervention tips and traps to optimise outcome. This coupled with a*
 - ✓ *manual containing lectures and the*
 - ✓ *latest literature abstracts*

will ensure your patients are getting optimal outcomes.

Who should attend ?

If you treat or manage a patient with an acute abdomen this course is a must for you!

Donegal Clinical Research Academy would like to thank the Colleges, Trade and RCSI in particular for their support and the sponsors without whom we could not share this course with you.
