

Train the Trainers: Core training for PoCUS trainers in Emergency Medicine.

Course Director: James Connoly

Co-director: Effie Polyzogopoulou

When: Thursday, May 23rd 9:00 AM to 6:00 PM

Where: Athens War Museum rooms Rigas Feraios and Adamantios Korais

Course Language: English

Description

The Hellenic Society for Emergency Medicine is honored to present the first Train the Trainers in Core POCUS course organized in collaboration with EuSEM.

- Empower yourself and your colleagues with bedside ultrasound skills!
- This intensive single-day course, offered during the Hellenic Society for Emergency Medicine Congress, is designed specifically for emergency department physicians who want to become Trainers in Core Ultrasound.
- Master the essentials of bedside ultrasound, reskill, and gain the confidence and expertise to train other physicians in this essential clinical skill.

Key Learning Objectives

- Develop your ultrasound teaching skills: Learn effective educational methods and techniques tailored for Level 1 Ultrasound training.
- Craft engaging and efficient training sessions: Master curriculum development, hands-on practice implementation, and effective feedback strategies.
- Become a confident trainer and mentor:
- Equip yourself to guide and support your colleagues in their ultrasound journey.

Benefits:

- Empower your colleagues: Contribute to a more skilled and confident emergency medicine team by becoming a certified ultrasound trainer
- Become a leader in your department: Foster a culture of continuous learning and ultrasound utilization within your team.
- Learn the basics of organizing ultrasound training sessions

- Network with fellow ultrasound enthusiasts: Connect with colleagues and share best practices in emergency ultrasound education

Who Should Attend

- Emergency department physicians with strong Level 1 Ultrasound proficiency and a passion for teaching
- Department leaders seeking to implement or improve Level 1 Ultrasound training programs.
- Emergency department physicians who want to help in the dissemination of this critical skill to other clinicians.

Faculty

Renowned emergency physicians with extensive experience in bedside ultrasound and medical education will guide you through this immersive learning experience.

Duration: 8 hours
